EXCHANGE STUDIES
ERASMUS+
Chalmers International Mobility – Chalmers University of Technology
Information about exchange studies:
The Student portal → Studies → Study in an exchange program
Information om utbytesstudier och praktik utomlands:
Studentportalen ➔ Utlandsstudier
Erasmus+
Enriching lives, opening minds
This is Erasmus+

• You have the possibility to spend one/two semester(s) at a partner university in Europe.

• Chalmers has established many Erasmus+-agreements with partner universities.

• If you go on exchange within an Erasmus+-agreement you are covered by an insurance through Chalmers, you will get an Erasmus+-scholarship and you do not need to pay any tuition fee at the partner university.

• The agreements are written within different subjects and the number of spots are also decided.

• IMPORTANT: Read the Regulations in the Student portal – it is important that you meet the requirements in order to be eligible for exchange studies.
The Search portal for exchanges places

In the Search portal / Sökportalen you’ll find all our agreements.

You can use the filter tool to select:

• Type of exchange (Erasmus+ / ENHANCE)
• Country
• Subject area
More information – the Search portal

- Website of partner university
- Available subjects
- Link to course catalogue
- Fact Sheets
- Number of spots
- Travel reports (mostly in Swedish, but some in English!)
- Update in progress!
Subject areas

• It is the subject area you belong to now, at the time of the application, which decides which agreements you can apply for. For ex. if you are a student within Industrial Engineering you can apply for agreement within I.

• If you would like to change “subject area” for the master (for ex. from M to I) you still have to look for agreements within M. When you have begun your master studies – then you can apply for agreements within the subject area of your master (and the subject area of your bachelor).

• More information (in Swedish) on:

THINK OUTSIDE THE BOX

Chalmers has great partners in:
Iceland
Croatia
France
Germany
And many more of course...

If you have question regarding a specific university – contact the coordinator!
ENHANCE – European Universities of Technology Alliance

An alliance of:

- TU Berlin
- Warsaw University of Technology
- Universitat Politecnica de Valencia
- Politecnico di Milano
- RWTH Aachen
- Norwegian University of Science and Technology
- TU Delft
- ETH Zürich
- Gdansk Tech
- Chalmers University of Technology

With the support of the Erasmus+ Programme of the European Union
Vision and Mission of ENHANCE:

“We will drive responsible societal transformation by enhancing a strong alliance of European Universities of Technology, empowering people to develop and use science and technology for the benefit of society and turn global challenges into opportunities.”

- ENHANCE – the European University of Technology to build the European Education Area
- ENHANCE – creating a University Alliance which empowers people
- ENHANCE – forming a European University of Technology which is an integral part of society
ENHANCE – European Universities of Technology Alliance

5 pilot study programs:
Mechanical Engineering (B.Sc. & M.Sc.), Energy Engineering (M.Sc.), Computer Science and Engineering (M.Sc.) and Urban Planning (M.Sc.)

Benefits for participating students:

• **Reserved places in selected courses** *(see course catalogue)*

• Recognition has already been examined

• **Part of the network/information about new offers**

Physical mobility is funded with Erasmus+, in the future there will be also virtual course offers available

→ **Ultimate goal:** seamless mobility experience across all partner institutions with an automatic access to their course catalogue and automatic recognition!
ENHANCE – European Universities of Technology Alliance

Interested and would like to learn more about ENHANCE? Please visit: https://enhanceuniversity.eu/
Plan your studies

• Important to have a study plan (the courses that you will take abroad should be credited in your education here at Chalmers).

• **AT THIS STAGE OF THE PROCESS:** Check that the partner universities you apply for, offer courses that you think you can credit into your education at Chalmers.

• When you have received an exchange opportunity you should discuss your course selection together with your Director of Studies.
Application – when and how?

• January 15 – February 15

Apply for student exchange / Ansök i MoveOn
- Create an account
- You can select four options
- Fill out the application
- Submit your application before deadline

Students within architecture should attach a portfolio – more info in the Student portal.
Received a spot or not?

Please check your email every day!

• You will get an email if you have received a spot.
• You need to accept or reject the offer.
• If you receive a spot and accept the offer – we will invite you to an information meeting and tell you about the next steps.
• You will receive an email with information if you do not meet the requirements.
• We will send you information via emails so please check your email everyday and follow the instructions.
Nomination and application

• Nomination (we inform the partner university that you have been selected for exchange studies)

• Then, instructions directly from the partner university

• Normally, you need to send an application to the partner university:
  - CV
  - Motivation letter
  - Transcript of records etc.
Erasmus+ Grant and CSN (if possible)

• Apply for CSN - if possible (Studies abroad)

• The Erasmus+ Grant - Approx. 460 euro / 510 euro a month (depends on which country you are going to):
  - Major part in the beginning of the semester
  - The rest of the grant after the exchange

• Very good to have buffer with money at the beginning of the exchange.

• You need to fill out and upload all requested documents to CIM
At the partner university
You will get information directly from the partner university

• Accommodation – assistance from the partner university can vary.

• Language course – a good start of the exchange (possibility to apply for compensation, yet to be decided for 2023/2024)

• Welcome Day / Welcome Week – meet other students and often very fun.
Important!

• You need to plan your exchange carefully.
• Seek information regarding visa.
• Is it possible for you to rent your apartment?
• If you are receiving a scholarship, please check if it is possible for you to go on exchange.
• Can be a little bit challenging administratively but it is worth it!
Responsibility

• It is your own responsibility to seek information and plan your studies so that the exchange period will be as good as possible.

• You must be prepared to be active in the process and arrange practical details yourself.
EXPLORE MORE!

• Special designed information meetings in the beginning of next year
• Focus on certain countries and universities
• You will get more specific information
• More information will be sent to you by email
EXPLORE MORE

• January 24: Italy and Portugal
• January 26: Austria, Ireland Spain, Switzerland and United Kingdom
• January 31: Belgium, France, The Netherlands and The Nordic countries
• February 2: Baltic countries, Croatia, Czech Republic, Greece, Germany, Poland and Turkey
Chalmers International Mobility

• Please read the information in the Student portal.

• Questions? More information about a specific university? Send an email to: studentexchange@chalmers.se or to the International coordinator directly. Contact details can be found in the Student portal.
